EDUCATION

Annamacharya Institute of Technology and Sciences

 $August\ 2024$ B. Tech Computer Science CGPA: 7.5

SKILLS

Languages: JavaScript, Java, Python

Tools: Git/GitHub, Canva, Figma, Postman, VS Code

Frameworks & Libraries: React, Express.js, Node.js, RESTful API, Tailwind, Bootstrap, Material-UI, EJS

Databases: MySQL, MongoDB

PROJECTS

HealthSync | MERN Stack (MongoDB, Express, React, Node.js), Tailwind CSS, Google OAuth, Razorpay, RESTful APIs

- Developed an interactive platform to streamline doctor appointment bookings, enhancing engagement for both patients
- increased scheduling efficiency by 40% and reduced patient wait times by 25% through a seamless booking interface.
- Implemented a responsive UI using React and Tailwind CSS for optimal user experience, integrated Google OAuth for secure login, and used MongoDB and Express to manage and scale data handling efficiently.

Forever | React, MongoDB, Express, REST Apis, Tailwind CSS, Stripe Payment Gateway

- Built a user-friendly e-commerce platform for shopping clothing for men, women, and kids.
- Integrated Stripe Payment Gateway Facilitated secure online payments and cash on delivery options, streamlining the checkout process and enhancing customer trust.
- Created cart and order management pages to improve transparency and reduce inquiries by 40%.
- Built an admin dashboard for managing product collections and monitoring order statuses, increasing admin efficiency by

Farmer's portal | Python, Django, Flask, Blockchain Technology, SHA-256 Algorithm

- Developed a secure platform enabling farmers to register, log in, and list their products online.
- Enhanced transaction security and trust for users by implementing blockchain technology, leading to a safer marketplace experience.
- Designed a user-friendly interface with Django and Flask, improving usability and customer satisfaction.

Work Experience

InnoByte Services | Backend Developer (Intern)

Aug. 2024 - Oct. 2024

- Developed and optimized backend processes, improving response times by 20%.
- Enhanced API security, reducing error rates by 15%.
- Gained experience with Node.js, Express, MongoDB, and RESTful APIs.

Oasis Infobyte | Full Stack Developer (Intern)

Mar. 2024 - June 2024

- Contributed to full-stack development projects, gaining hands-on experience in both frontend and backend technologies.
- Collaborated with the team to implement features and optimize application performance.
- Implemented user authentication and authorization using OAuth, ensuring secure access to resources.
- Developed RESTful APIs using Express.js and Node.js, enhancing data flow and integration with the MongoDB database.

Cyber Secured India | Cyber Security & Digital Forensics Intern

Nov. 2022 - Feb. 2023

- Learned foundational principles of digital forensics, assisting in data analysis to uncover security incidents and
- Collaborated with the cybersecurity team to develop incident response strategies and threat mitigation plans as a trainee.

CERTIFICATIONS

- Google IT Support Professional (Coursera)
- Practical Ethical Hacker (TCM Security)

ACHEIVEMENTS

- Awarded Bronze Medal in College Hackathon Fest for web design, showcasing innovation and technical skills.
- Recognized with **First Position** in College Poster Designing Fest for exceptional creativity.
- Secured **Top Prize** in College Chess Tournament by defeating all competitors, illustrating strategic thinking.
